Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

Magnitude 8.0 Earthquake, Aleutian Islands, Alaska (New/Final)

- On 06/23/14 at 1353 hours a verified 7.1 magnitude earthquake occurred in the Aleutian Islands, Alaska.
- At approximately 1415 hours the magnitude was upgraded to 8.0.
- A Tsunami Warning was in effect for portions of the Alaskan coast; however, it was later downgraded to an Advisory.
- No Warning, Watch, or Advisory has been issued for California.
- Conference calls were held with the National Tsunami Warning Center and the information was disseminated to the Coastal County Operational Areas via conference call.
- At 1737 hours, the National Tsunami Warning Center cancelled the Tsunami Advisory in effect for the Alaskan Coast. There has not been any Tsunami impact or threat to California.

Brand Incident, Vegetation Fire, Los Angeles County (New)

- Location: Brand Park, City of Glendale, Los Angeles County
- Jurisdiction: LRA
- 150 Acres
- Forward rate of spread stopped, continued containment and mop up
- 5 hikers were safely extracted on 06/22/14; 3 were extracted via helicopter
- No evacuations reported

Oak Incident, Vegetation Fire, Calaveras County (Update)

- Location: California Oak Valley Road x Pool Station Road, Copperopolis, Calaveras County
- Jurisdiction: SRA
- Start Date/Time: 06/22/14 1237 hours
- 85 Acres, 90 % contained
- Forward spread has been stopped
- 1 outbuilding destroyed

SITUATION SUMMARY

Cal OES Southern Region

The City Rancho Cucamonga and San Bernardino County EOCs are monitoring a fire in the Red Hill Community of Rancho Cucamonga. Cal OES Southern Region is monitoring the incident. There are no unmet or anticipated needs at this time.

Significant Weather

- Fire Weather Watch in effect from 1100 – 2300 hours on 06/25/14 for portions of El Dorado, Placer, Nevada, Mono, Alpine, and Madera Counties.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

FIRE WEATHER

NORTHERN CALIFORNIA:

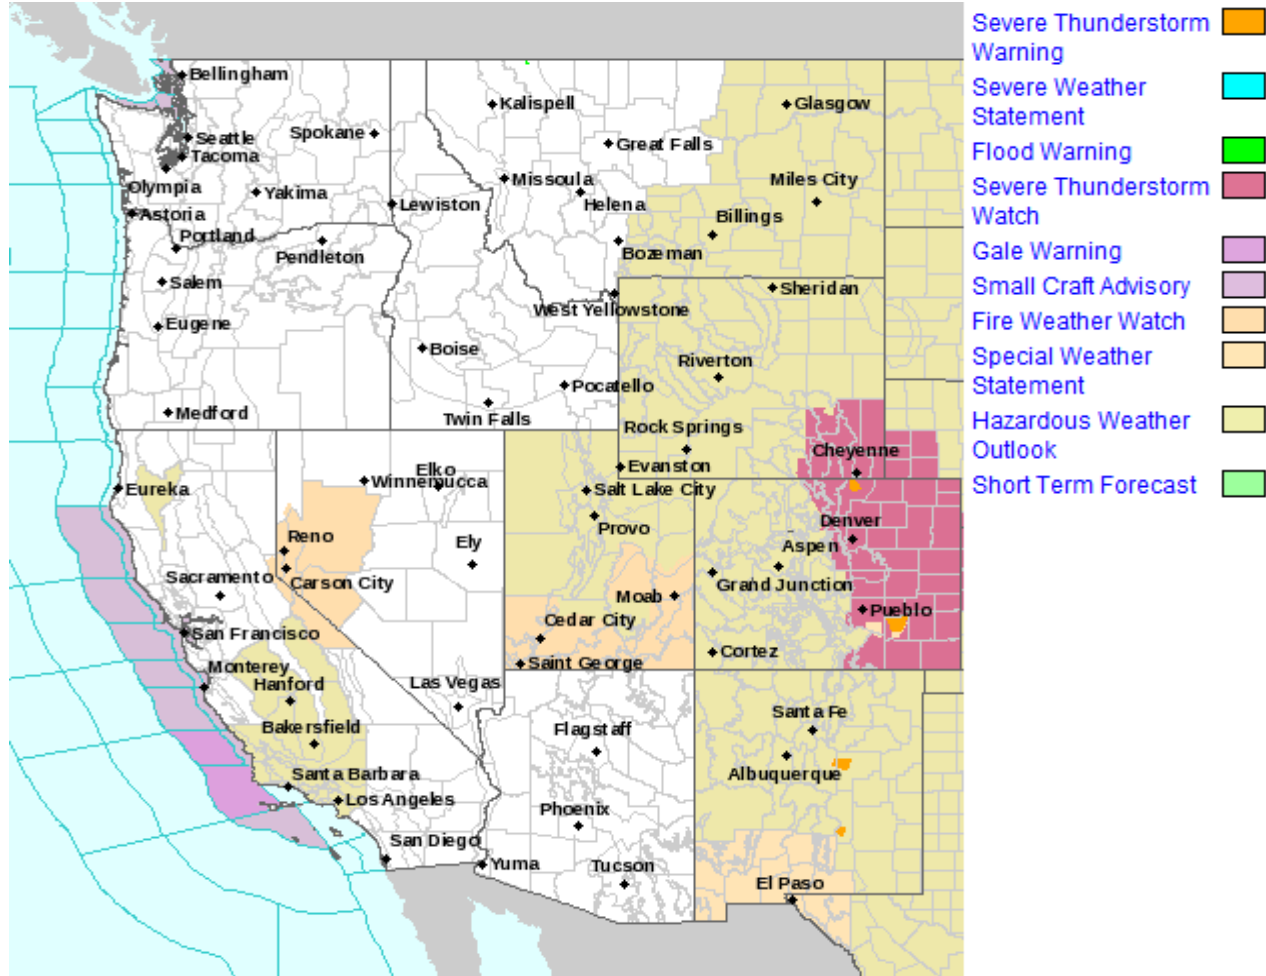

A couple of small, weak weather systems will pass through Northern California on a persisting westerly flow over the next few days. One such system today will bring mostly high cloudiness to Northern California, but this afternoon and evening will bring a chance of some light showers or isolated thunderstorms to the northern mountains. Tuesday will be similar to today without the chance of northern showers. A stronger system will approach the coast Wednesday then move inland overnight and Thursday. There will be a chance of some light showers and possibly a few thunderstorms as that system moves through, mainly in the north. Any thunderstorms that occur later this week will be wet and very isolated and any significant precipitation is not expected to be widespread. Higher humidity, cloudiness and cooler temperatures will come to all of Northern California with this system, however. Clearing will start Friday, then drier, warmer conditions under higher pressure will return over the weekend into next Monday. The warmest inland areas will drop into the 80s Wednesday and Thursday then warm into the 90s again Friday and through the weekend. Periods of moderately strong, gusty westerly afternoon winds are also expected Wednesday and Thursday with the incoming system and may cause low Relative Humidity for areas east of the Sierra crest. Areas of coastal low clouds and morning fog will continue to be somewhat patchy and will likely dissipate substantially during the day.

FIRE WEATHER

SOUTHERN CALIFORNIA:

A weak ridge of high pressure over the area will bring a degree or two of warming each day through Wednesday. Maximum temperatures will be in mid 70s to mid 80s across the mountains and mid 80s to mid 90s in the valleys today. The marine layer will remain around 2,000 feet deep through Wednesday, with morning low clouds and fog making it part way into the coastal valleys. Minimum humidity will remain in the single digits and teens above the marine layer. There will be westerly afternoon winds of 15 to 25 mph with gusts to 40 mph across the desert passes through Wednesday. A weak Pacific trough will move inland over the West Coast cooling temperatures to near or slightly below normal Thursday. Minimum humidity will increase to 15% to 30% above the marine layer Thursday. Winds will increase to 20 to 30 mph with gusts to 50 mph across the mountain ridges and desert passes Thursday afternoon. A strong ridge of high pressure will build into California from the southwest bringing warming and drying to the region Friday through this weekend. Temperatures will approach 100 degrees over the warmer valley locations by Sunday. Winds will become light this weekend.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

Cal EOC Incident – 2014 Drought

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

****As our state's rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly. This winter's below average rain and snowfall worsens conditions in this third straight dry year.***

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

Situational Summary (Cont.)

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The final manual snowpack survey of the season was conducted on Thursday (May 1) and showed California snowpack at 18% of normal.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2014-LAW-2798**, El Dorado County is planning an in-county SAR exercise on 07/15/14 for their volunteers and have requested the assistance of the California National Guard (CNG) aviation assets to support the exercise. Elements of the exercise will include an orientation to the various CNG air assets (H72, H60 and CH47), hoist training, patient packaging for air evacuation and ground team insertion and extraction training.
- **2014-LAW-2679**, The 95th CST will provide Joint Hazard Assessment Team support in support of SFPD's Special Operations Bomb Squad at the 2014 Bay to Breakers Marathon. Radiation detection teams will survey background levels of radiation as part of the overall security plan. The 95th deployment will include advanced planning and pre-positioning prior to race day.
- **2014-LAW-2483**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2481**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
